

Adharsh M R

AI Developer | Generative AI Engineer

✉ adharshmr0@gmail.com | ☎ 80754 80745 | 🔗 linkedin.com/in/adharshmr

Professional Summary

Application developer specialized in the creation of rapid prototypes, AI-driven processes, integration of LLMs into systems, and automations through use of Python, JavaScript, and contemporary GenAI solutions. Experienced in full-stack development, AI-powered programming, data processing operations, and the fast development of AI-driven products via platforms such as Claude Code, GitHub Copilot, and OpenAI integrations. Extensive experience with computer vision data pipelines, analysis, and visualization tools.

Skills

AI & Gen AI: AI-Assisted Coding, LLM Workflow, Prompt Engineering, Tool Calling Agents, AI Automation, Rapid Prototyping

Programming & Databases: Python (Pandas, NumPy), SQL, JavaScript, HTML/CSS

Frameworks & Libraries: Pandas, NumPy, Flask, REST APIs

Data & Analysis: Data Annotation, Data Cleaning, EDA, Predictive Modeling, Excel Analytics, Power BI

Tools & Platforms: Claude Code, GitHub Copilot, VS Code, GitHub, Adobe Creative Suite

Professional Experience

CSIR-National Aerospace Laboratories, Bengaluru

Feb 2023 - March 2026

Project Associate

Technical & Data Operations

- Built and managed AI-assisted simulation and educational technology systems.
- Leveraged agentic workflows to rapidly develop and deploy full-stack web platforms for national scientific outreach programs.
- Created technical animation and multimedia systems to simplify aerospace concepts.
- Led technical mentoring and project lifecycle guidance for 5+ college internship students.
- Facilitated 10+ national-level aerospace education programs reaching 1,000+ students.

CSIR – National Aerospace Laboratories, Bengaluru

Nov 2022 - Feb 2023

Project Assistant

Digital Solutions & Technical Content

- Managed development and deployment workflows for web-based technical projects.
- Designed intuitive UI layouts, visual frameworks, and multimedia communication assets.
- Organized and coordinated large-scale technical outreach events and digital initiatives.

Infolks Pvt. Ltd., Palakkad

Jul 2019 - Nov 2021

Junior Executive

- Executed high-accuracy annotation workflows for computer vision datasets.
- Worked on contour labeling, semantic segmentation, keypoint mapping, and bounding box annotation.
- Supported mission-critical AI/ML projects for European automotive and retail clients.
- Maintained a consistent 98%+ annotation accuracy rate across large-scale daily data operations.
- Ensured GDPR and ISO compliance across data validation processes.

Project Work

Physics-Based UAV Simulation Lab

Tech Stack: Python, JavaScript, AI-Assisted Coding, Physics Simulation

- Built a virtual UAV simulation platform using AI-assisted development workflows .
- Simulated drone movement and behavior using physics-based predictive logic.
- Designed educational aerospace visualization systems for scientific outreach programs.
- Used Claude Code and GitHub Copilot to accelerate rapid feature prototyping and development.

Gold Transaction Analytics Platform

Tech Stack: Python, Excel Automation, AI Tool Calling Workflows

- Built a web application to analyze Google Pay gold transaction data.
- Automated GST calculations, transaction categorization, and trend analysis.
- Integrated AI-assisted backend workflows and tool-calling agents for automation.
- Improved financial tracking efficiency through automated processing pipelines.

Student Performance Prediction System

Tech Stack: Python, Machine Learning, Decision Trees

- Developed a predictive analytics framework using ID3 Decision Tree algorithms.
- Analyzed behavioral and academic patterns of 1,100+ students.
- Built an automated Tutor-Alert system to identify at-risk students.
- Enabled data-driven interventions to improve student performance outcomes.

Image Dataset Preparation Pipeline

Tech Stack: Python, Data Annotation, Computer Vision

- Designed and optimized high-efficiency data cleaning pipelines for large-scale AI training sets.
- Managed quality control across diverse data formats, including image, video, audio, and text.

Education

University of Mysore

MBA in Data Science and Business Analytics (Pursuing)

Jun 2023 - Present

JCT College of Engineering and Technology, Coimbatore

B.E. in Computer Science and Engineering

Apr 2016 - Jun 2019

Government Polytechnic College, Palakkad

Diploma in Electronics Engineering

May 2013 - Jun 2016
